

WHY CONTACT A LIAISON LIBRARIAN?

These Librarians act as liaisons with academic programs.

They offer subject-specific reference expertise and instruction sessions, and select books and other materials to add to UNLV

Libraries' collections. Contact your liaison librarian to:

- Discuss resources needed by students in your program or for your own research
- Request purchase of books, journals or media items for the collection
- Plan a library assignment to help students develop stronger information literacy skills
- Set up a subject-specific library instruction session in the library or in your classroom
- Talk about your own research and the tools and materials you need
- Get help with searching databases, using RefWorks, or finding information online
